#### MESSAGE

I AM DELIGHTED TO LEARN THAT ST. FRANCIS DE SALES HIGHER SECONDARY SCHOOL NARANGI IS BRINGING OUT ITS ANNUAL MAGAZINE CELEBRATION. IT IS MY CHERISHED PRIVILEGE TO SHARE MY JOY TO SEND A MESSAGE OF CONGRATULATIONS TO THE PRINCIPAL, STAFF, STUDENTS, PARENTS AND ALL WHO ARE PARTNERS IN THIS ESTEEMED EDUCATIONAL INSTITUTION.

AN EDUCATIONAL INSTITUTION IS A PLACE WHERE WE BUILD UP OUR IDENTITY. THROUGHOUT OUR LIFE WE ARE EXPRESSING OURSELVES IN VARIOUS WAYS. LET OUR LIFE IN SCHOOL BE AN OPPORTUNITY TO BUILD UP GOOD AND SOLID CONVICTIONS WHICH WILL ENABLE US TO TAKE OUR RIGHTFUL PLACE IN SOCIETY. IF WE DO SO CORRECTLY, WE SHALL CONTRIBUTE TO THE CREATION OF A GOOD, UPRIGHT, HONEST AND TRUTHFUL SOCIETY WHERE MUTUAL LOVE AND RESPECT CAN BE EXPERIENCED BY EVERY MEMBER OF THE SOCIETY.

AS EVERY CONTRIBUTOR GIVES HIS/HER BEST IDEAS AND INSPIRATION, THEY THEMSELVES EXPERIENCE THE JOY OF SHARING WHILE THE READERS ADMIRE AND APPRECIATE THE EFFORTS AND CONTENTS OF THEIR CONTRIBUTION. THE WEALTH OF IDEAS DEPENDS ON THE HABIT OF READING AND OTHER INTERESTS THE WRITER DEVELOPS IN THE COURSE OF YEARS. BE SURE YOUR YOUNG LIVES WILL BE MOULDED BY THE WONDERFUL INSPIRATIONS THAT YOU GATHER. I HOPE AND PRAY THAT YOUR WEALTH OF POSITIVE AND CONSTRUCTIVE IDEAS MAY CONTRIBUTE MUCH FOR A PEACEFUL AND PROSPEROUS SOCIETY.

I EXTEND MY WARM WISHES TO THE PRINCIPAL, STAFF AND STUDENTS OF ST. FRANCIS DE SALES HIGHER SECONDARY SCHOOL, NARENGI AND WISH GOD'S ABUNDANT BLESSINGS ON THEIR SINCERE ENDEAVOUR. I WISH THAT WITH YOUR WHOLEHEARTED HARD WORK AND PROPER PERSPECTIVE, WILL BRING CREDIT TO YOURSELVES AND SOCIETY AT LARGE.

YOURS IN CHRIST JESUS

JOHN MOOLACHIRA  
ARCHBISHOP OF GUWAHATI

DEAR FR. GEORGE THOMAS,  
RESPECTED TEACHERS AND MY BELOVED CHILDREN,  
DISTINGUISHED PARENTS AND WELL-WISHERS,

MY HEARTFELT CONGRATULATION TO EVERYONE OF SFS NARENGI FOR THE TIMELY RELEASING OF YOUR 'SCHOOL MAGAZINE-2022.' IT IS INDEED REALLY GREAT THAT IN SPITE OF THE PANDEMIC YOU ARE ABLE TO PUBLISH THE NEW EDITION IN RECORD TIME. KUDOS FOR YOUR EFFORTS AND TALENTS!

COVID-19 KEPT YOU AWAY FROM EACH OTHER FOR A LONG TIME. YOU DID MISS THE SCHOOL BUT YOU NOT MISS YOUR CONNECTIONS TO EACH OTHER. I AM VERY GLAD THAT YOU ARE BACK TO THE SCHOOL. YOU ARE BACK TO THE SCHOOL PREMISE WITH LOT OF ENTHUSIASM AND VIGOUR! GREAT TO SEE YOU!

ST. CLAIRE OF ASSISI WROTE 'WE BECOME WHAT WE LOVE AND WHO WE LOVE SHAPES WHAT WE BECOME'. YOUR FAMILY IS YOUR FIRST SCHOOL AND YOUR PARENTS ARE THE FIRST TEACHERS. YOUR SCHOOL AS THE EDUCATIONAL CENTRE IS INSTRUMENTAL IN SHAPING YOU FOR THE FUTURE. THE SCHOOL AND ALL THAT IS PART OF IT PLAY A PIVOTAL ROLE TO A GREAT EXTENT IN FORMING YOUR IDENTITY, FRAMING THE PERSON WITHIN YOU AND DEVELOPING THE TALENTS YOU HAVE. IN OTHER WORDS, THE SCHOOL IS THE POTTER AND YOU ARE THE CLAY!

BE WHAT YOU ARE BE AT ITS BEST. THE WORLD NEEDS YOU THAT IS WHY GOD CREATED YOU. IF GOD WANTED YOU TO BE SOMEBODY ELSE THEN GOD WOULDN'T HAVE CREATED YOU THE WAY YOU ARE. GOD SAYS YOU ARE BEAUTIFUL, GOOD, CAPABLE AND STRONG. IN THE HOLY BIBLE THERE IS A SAYING "YOU FORMED MY INMOST BEING; YOU KNIT ME IN MY MOTHER'S WOMB. I PRAISE YOU BECAUSE I AM FEARFULLY AND WONDERFULLY MADE." LET THE IMAGES AND OPINIONS THAT TVS AND MAGAZINE COVERS AND OTHERS MAKE FOR YOU SHOULD NOT DISTURB YOU. STOP TRYING TO BE SOMEBODY ELSE!

BE PROUD OF YOURSELF, OF YOUR PARENTS, OF YOUR FAMILY, OF YOUR SCHOOL AND OF YOUR TEACHERS! MAY GOD BLESS YOU ALL!

YOURS LOVINGLY

SATGOAN, NARENGI P.O: UDAYAN VIHAR  
GUWAHATI, ASSAM-781171

DEAR STUDENTS, PARENTS, TEACHERS, FRIENDS, AND WELL-WISHERS, WISHING YOU ALL PEACE AND JOY.

IT'S CELEBRATION TIME!!! THE ANNUAL MAGAZINE OF ST. FRANCIS DE SALES SCHOOL, NARENGI, GUWAHATI WHICH IS A CELEBRATION OF CREATIVITY, INNOVATIVE IDEAS, FUSION OF COLOURS, SYNCHRONIZATION OF THOUGHTS AND UNITY OF PURPOSE IS READY TO LAUNCH. THIS EDITION OF THE CELEBRATION IS REAL BECAUSE IT CELEBRATES THE INDOMITABLE HUMAN SPIRIT AND ITS INGENUITY. THE PIECES OF WORK IN THE MAGAZINE WERE CREATED BY THE STUDENTS DURING THE WORST PANDEMIC OF THE CENTURY. THE MAGAZINE IS EVIDENCE THAT THE HUMAN SPIRIT IS SURMOUNTABLE TO ANY CHALLENGES BE IT INTERNAL OR EXTERNAL TO THE HUMAN PERSON. COVID LITERALLY TAUGHT US THAT ONE CAN NOT ONLY OVERCOME ALL THE CHALLENGES BUT ALSO RACE PAST THE OBSTACLES AND BECOME SUCCESSFUL AND KEEP CELEBRATING LIFE BY BUILDING THE INNER STRENGTH AND VITALITY OF EVERY PERSON. SFS IS GLAD TO HAVE BEEN ABLE TO BUILD THAT INNER VITALITY AND CONTINUE THE JOURNEY OF CONTINUOUS CELEBRATION.

A CELEBRATION IS WORTH IT WHEN IT HAPPENS AFTER A LONG STRUGGLE AND RELENTLESS SEARCH FOR PERFECTION AND CONTINUOUS IMPROVEMENT. THE STORY OF OUR SCHOOL IS PRECISELY THAT. HERE AT SFS, WE CELEBRATE EVERYTHING THAT PROMISES GROWTH AND SUCCESS. THE BEST, LATEST AND RELEVANT IDEAS AND PRACTICES THAT EMERGE IN THE EDUCATION DOMAIN ARE IMPLEMENTED WITH NO HESITATION. THE HARDCORE CONCEPTS IN SCIENCE, COMMERCE AND HUMANITIES ARE BROKEN DOWN AND MADE SIMPLER FOR EVERY LEARNER MAKING IT A CELEBRATION IN THE CLASSROOMS. THE ENVIRONMENT OF JOYFUL LEARNING AND INTENSE RELATIONSHIP THAT EXISTS AMONG EVERY STAKEHOLDER OF THE SCHOOL MAKES OUR CELEBRATION A COMPLETE AND IMITABLE MODEL. THE WIDE USE OF TECHNOLOGY AND ITS CONTINUOUS ACCELERATION MAKES OUR EDUCATIONAL JOURNEY AN ONGOING CELEBRATION, UNSTOPPABLE!!! THE WIDE VARIETY OF CO-CURRICULAR ACTIVITIES, BOTH ONLINE AND OFFLINE, INSPIRING, AND KNOWLEDGE-DRIVEN STAR ASSEMBLIES COUPLED WITH SPORTS AND GAMES MAKE THE SFS CAMPUS UNPARALLELED. THE IMPLEMENTATION OF BEST PRACTICES AND THE INTRODUCTION OF TRAINING CELLS FOR BOTH TEACHERS AND STUDENTS CONTINUOUSLY ADD VALUE TO OUR KNOWLEDGE ECO-SYSTEM WITH A CELEBRATION UNLIMITED.

AS THE LATEST EDITION OF THE ANNUAL SCHOOL MAGAZINE IS IN YOUR HANDS, LET ME EXPRESS MY GRATITUDE TO THE EDITORIAL TEAM, THE STUDENTS WHO CREATED THE CLASS MAGAZINE, WHICH IS THE SOURCE OF THIS SCHOOL MAGAZINE, AND THE TEACHERS WHO PERSISTENTLY TRACKED STUDENTS' EXCELLENCE IN EVERY FIELD. THE SCHOOL MANAGEMENT IS ROCK SOLID BEHIND EVERY FORWARD JOURNEY OF THE SCHOOL WITH ITS UNSHAKABLE SUPPORT, COLLABORATION, AND VALUABLE INPUT FROM TIME TO TIME. IT IS THE BLESSING OF THE ALMIGHTY FROM ABOVE AND THE SPIRIT OF PARTNERSHIP THAT MAKES SFS GUWAHATI TAKE SMALL YET FIRM STEPS IN GROWING FROM STRENGTH TO STRENGTH. THANK YOU TO EVERYONE.

**"IF WE WANT TO REACH REAL PEACE IN THIS WORLD, WE SHOULD START EDUCATING CHILDREN."**  
-MAHATMA GANDHI

I AM PLEASED TO LEARN THAT ST. FRANCIS DE SALES HIGHER SECONDARY SCHOOL, GUWAHATI IS PREPARING TO BRING OUT THE NEXT ISSUE OF ITS ANNUAL MAGAZINE TITLED "CELEBRATION".

THE ROLE OF EDUCATIONAL INSTITUTIONS IN SOWING THE SEEDS OF CREATIVITY, COMPASSION AND LOGICAL THINKING AND TO SHAPE THE CHILDREN AS EMPOWERED CITIZEN IS OF PARAMOUNT IMPORTANCE. AS WE KNOW, CREATIVITY IS ONE OF THE MOST IMPORTANT HUMAN FACULTIES WITHOUT WHICH THERE WOULD HAVE BEEN NO PROGRESS FOR HUMANKIND. THEREFORE, IT IS VERY IMPORTANT TO INculcate CREATIVE IMPULSES AMONG STUDENTS AT A VERY TENDER AGE SO THAT THEY ALWAYS REMAIN FOCUSED TOWARDS INNOVATIVENESS AND POSITIVE THINKING. IN THIS CONTEXT I WISH TO BRING UP REMINISCENCE OF A FAMOUS SAYING BY CS LEWIS, BRITISH SCHOLAR AND WRITER. WHEN HE SAID, "THE TASK OF THE MODERN EDUCATOR IS NOT TO CUT DOWN JUNGLES BUT TO IRRIGATE DESERTS", HE ONLY TRIED TO EMPHASIZE ON CREATIVITY.

I HIGHLY APPRECIATE THIS INITIATIVE OF ST. FRANCIS DE SALES HIGHER SECONDARY SCHOOL. I HOPE THE ANNUAL MAGAZINE SUCCESSFULLY SHOWCASES SOME OF THE BEST CREATIVE ENDEAVOURS OF THE STUDENTS AND IS APPRECIATED BY ALL.

DEAR ALL,

I AM VERY HAPPY TO KNOW ABOUT RELEASE OF THE SCHOOL MAGAZINE CELEBRATION. IT GIVES ME PROFOUND PRIVILEGE & PLEASURE TO KNOW THAT THE INSTITUTION IS PUTTING CONSISTENT, INSISTENT & PERSISTENT EFFORT TO SERVE THE SOCIETY AND AS WELL AS THE NATION AT ITS BEST. THE AIM OF THE SCHOOL IS TO EMPOWER THE STUDENTS WITH SOUND KNOWLEDGE, CORE VALUE OF WISDOM HUMANITY AND EXPERIMENTAL LEARNING.

THE TEACHERS & STAFF MEMBERS UNDER THE LEADERSHIP OF FATHER GEORGE THOMAS ARE LEAVING NO STONE UNTUNED TO PROVIDE QUALITY KNOWLEDGE.

THE SCHOOL MAGAZINE MIRRORS THE DIFFERENT FACES OF DEVELOPMENT OF THE STUDENTS IN ACADEMIC AS WELL AS CO-CURRICULAR ACTIVITIES AND THUS IT WILL BE A VERY REWARDING EXPERIENCE FOR THE CHILDREN.

CHILDREN ARE LIKE BUDS IN GARDEN & SHOULD BE CAREFULLY AND LOVINGLY NURTURED AS THEY ARE THE FUTURE OF THE NATION AND THE CITIZEN OF TOMORROW. NO SUBJECT IS OF GREATER IMPORTANCE THAN THAT OF EDUCATION. SFS SCHOOL IS CONTINUOUSLY WORKING IN THIS DIRECTION BY PROVIDING VALUE BASED EDUCATION AND LAYING SPECIAL EMPHASIS ON CHARACTER BUILDING AND UPHOLDING HIGH MORAL VALUE, I AM SURE THAT THIS SCHOOL WOULD CONTINUE TO MAKE A SIGNIFICANT CONTRIBUTION IN EDUCATING THE STUDENTS IN SUCH A MANNER SO THAT THEY COULD FACE THE FUTURE CHALLENGES BOLDLY IN THEIR LIVES.

I CONGRATULATE YOU FATHER GEORGE THOMAS, THE FACULTY MEMBERS, THE STAFFS AND THE STUDENTS FOR THE COMMENDABLE ACHIEVEMENTS. THIS IS THE RESULT OF DEDICATION AND THE HARD WORD PUT IN BY YOU, WHICH HAVE LED THE SCHOOL TOWARDS GREATER HEIGHT OF GLORY.

**"AS A WRITER, YOU SHOULD NOT JUDGE, YOU SHOULD UNDERSTAND."**

*— Ernest Hemingway*

School magazines have been an integral part of the larger curriculum design here at SFS Guwahati, invariably one of the finest things to have been churned out by students here. Over many years, student past and present have contributed to creating impeccable anthologies of creative literature; a process that has been taken up with renewed fervour after a two-year covid induced hiatus. With the implementation of the new National Education Policy, experiential learning is one of the important pedagogical processes, and working to create the school magazine gives the learners a tangible tool to put their knowledge into practice.

This year too, after a long drawn process of students designing class magazines and thereafter carefully selecting the best, we present to all our readers the 2022 version of Celebrations, the annual magazine of SFS Guwahati. This book shall bear an imprint to the many faces and achievements of all our students, their creative outputs, along with shared smiles with their teachers and staff who make it all happen.

Happy reading!

The Editorial Board.

# BAD DAYS

For us a bad day is when we don't look good or maybe when we get scolded by our teacher or parents.

We may also have a bad day and feel sad, when we have an argument with our friends. However, there are many factors which make our day bad, and we can't define bad days. Now, all I could say is that rather than focusing on our past. We should try to give our best and stay happy always. We should try to remain positive and calm in our worst situation.

# KNOW THE COSMOS...

## Q: DOES SPACE SMELL?

Ans: Yes, space does smell! The most wistful theory about this is that the smell of space is the leftover aroma of dying stars. There's an awful lot of combustion going on in the universe. Stars mostly comprise of Hydrogen and Helium gas, powered by a nuclear fusion reaction that can last for billions of years. At the end of its life, as the hydrogen fuel is used up, a star will collapse on itself and undergo a violent supernova explosion, during which heavier elements such as oxygen, carbon, gold and uranium will be produced. All these rampant combustions produce smelly compounds called 'polycyclic aromatic hydrocarbons. These molecules are thought to pervade the universe and float around forever. This causes space to smell.

## Q: HOW DO ASTRONAUTS WEIGH THEMSELVES IN SPACE?

Ans: In space, astronauts cannot measure their weight directly, because they are in freefall and so their weight is essentially zero. However, by measuring mass, they can determine what their weight on Earth would be. To measure their mass, astronauts usually use a Russian device called Body Mass Measurement Device (BMMD), which is a bit like a pogo-stick with a compressed spring. Astronauts first curl their body around the BMMD, hold on it tight and then release the spring, gently travelling up and down whilst the device measures the frequency of oscillation. By first calibrating the BMMD and by knowing the stiffness of the spring, the device can accurately determine an astronaut's mass.

## Q: DOES THE INTERNATIONAL SPACE STATION HAVE WI-FI?

Ans: Yes! The ISS has Wi-Fi provided by a couple of Bel Air Wireless Access Points in the US segment. This is used to connect devices on the operations network, though, not for astronaut's personal internet use.

## Q: ARE THERE ANY LONG-TERM EFFECTS OF SPACEFLIGHT?

Ans: Yes, there are many long term health effects of spaceflight. Some of them are – muscle deterioration, bone deterioration, visual impairment, radiation exposure which eventually may cause cancer, vascular ageing, back/ neck pain and depleted immune system.

## VOCAL ART

I started this art form in 2017 after watching Tom Thum on TedEx. In this art form, a person can create music from their mouth by using their tongue, lips and throat. When I first started this art form which is officially called "Beatbox", it was very difficult for me because I learnt it from YouTube as at that very time other tutorial videos weren't available. Furthermore, I created my own sounds and implied them in my vocal music. I have improved a lot after joining Assam Beatbox Community. I was the 18th member of that community. It was very difficult to join that community. I have learned most of the sounds and techniques from the best beatboxers from our community.

In the year 2019, I participated in various events and championships and won a few titles and championships. It was a golden year of my beatboxing journey.

But the arrival of Covid-19 has stopped the events and turned them to online events which were not interesting and that stopped me from practising this art.

## THROUGH MY HEART

The most beautiful scenic beauty of Assam is the river Brahmaputra which runs through the heart of the people. Here, still exists divinity from heaven on Earth, places where your prayer is still heard. With its lush green tea plantation it looks ecstatic.

The entire Northeast promises to adore and accept its seven sisters with open arms to all new ideas of culture, heritage and language with unity.

No individual can really define the beauty of the ancient city Sivasagar and the crinkly memoirs left by magnificent literature, which fill the voices of the singers, who brought fire in our souls and the freedom fighter who inspired us to sacrifice our blood, sweat and tears for our nation with.

দেশতকৈ মোমাই ভাঙৰ নহয় (The nation is first, relations later).

With the sunrise aura over the skyline and sun rays glancing the northeast how proud I am to herald its lustre everyday.

# THE BEST SEED

There was once a farmer who grew the most excellent wheat. Every season he won the award for the best wheat in his country.

A wise woman came to him to ask about his success. He told her that the key was sharing his best seed with his neighbours so that they could plant the seeds as well.

The wise woman asked "How can you share your best wheat seed with your neighbours when they compete every year?"

"That's simple", the farmer replied. The wind spreads the pollen from everyone's wheat and carries it from field to field. He continued, "If my neighbours grew inferior wheat, cross-pollination would degrade everyone's wheat, including mine. If I'm to grow the best wheat, I must help my neighbours grow the best wheat as well."

This is not only excellent advice for growing the best crops but also great advice for how to live your life. If you want to live a meaningful and happy life, help others find happiness.

## CHILD ABUSE

**Child abuse or child maltreatment:**

A physical, sexual or psychological maltreatment or neglect of a child or children especially by a parent or a caregiver.

**Physical abuse:-**

Physical abuse does not occur in isolation but as a part of a constellation of behavior including authoritarian control, anxiety – provoking behavior, and a lack of parent as warmth, physical abuse as a child can lead to physical and mental difficulties in the future including re-victimization, personality disorder, stress disorder, depression, anxiety, suicidal ideation, eating disorder, substance use disorder, and aggression. Physical abuse in childhood has also been linked to homelessness in adulthood.

**Sexual abuse:-**

Child sexual abuse (C.S.A) is a form of child abuse in which an adult or older adolescent abuse a child for sexual stimulation. Effects of child sexual abuse on the victim include guilt and self blame, flashback, insomnia etc.

# REAL MEANING OF RELIGION

5000 years ago in the battlefield of Kurukshetra, Lord Krishna said "कर्म ही धर्म है" (our duty is our religion). But as time has passed, the meaning of religion changed because of which billions of people were killed in the name of religion. Why was there a chaos after a historic event? In Indian history, the day when our country was independent, it was partitioned just for a false meaning of religion. Not just that more than 2 million people were killed, up to 20 million displaced. What is the main weapon of terrorists? The answer is religion-They use a simple word- 'religion' which can make an innocent boy of 14 years a killer.

What about 26/11 terrorist attack? The main motive disclosed by Ajmal Kasab was Islamic terrorism. What about Hitler? A person who took the world to II World War for the Ideology of Nazism. And what about the Malegaon blasts? Same crime, different religion. So, my brothers and sisters why do we fight for a word which has a false meaning. An Atheist is for me the best person because he don't have any religion for which he will give his life or take others life.

## PETAL OF FLOWER

SOURCE : GOOGLE

A simple flower,  
That's all it shall take.  
For another soul,  
To smile and wake.

Whether for lust,  
Love or passion,  
Or sympathy and,  
Compassion.

A mother's  
Priceless expression  
And a Child's  
Honest obsession

# WHAT IS INTELLIGENCE?

When we hear the word 'Intelligence' the first thing that may come to our minds may be Maths and Science, high grades, high IQ etc. But Intelligence is just not that. There can be various types of intelligences. Being good in music, language, communication, gardening etc. are also signs of intelligence.

Following are the different types of intelligences:

**Logical – Mathematical Intelligence:** People having logical – mathematical intelligence are good with numbers. They can be good in Maths and Science, they think critically and logically to draw themselves out of problems.

**Musical Intelligence:** People having musical intelligence are good with sounds and music. They have an excellent sense of rhythm, tone, pitch and most importantly they enjoy music and remember things when sung into a song.

**Naturalistic Intelligence:** People with this kind of intelligence can easily grow anything, any plant. They enjoy nature, nurture it and are very sensitive towards it. They deeply understand its importance and value.

**Linguistic Intelligence:** People with this type of intelligence are good with languages. They take least amount of time to learn a language. They may enjoy word-games and like writing stories, poems.

**Intrapersonal Intelligence:** People with this intelligence may like to work independently, set goals and focus on achieving them. They understand themselves, their feelings, emotions, strengths and weaknesses.

**Interpersonal Intelligence:** People with this type of intelligence are good at talking, working in teams, helping others and understanding others.

**Bodily – Kinesthetic Intelligence:** It is the ability to use the whole body in expressing their feelings and ideas. They have good body language and can be good at acting, dancing, imitating gestures and expressions etc.

**Spatial Intelligence:** Having spatial intelligence means being good in imagining in three dimensions. They are good at reading maps, crafts, looking at pictures and solving spatial problems like pictures etc.

# THE POWER OF MUSIC

Music is the magic done by melody-  
Doesn't always have to be drums and guitar,  
It is our hearts beating in harmony.  
Music, for me, can be loud,  
Like the thunderstorm in my heart;  
Music, for me, can be soft,  
Like the sweet patter of rain that draws me to bed.  
Music speaks for me when I'm at a loss for words.  
It is a wonderful miracle of notes, keys and strings.  
It makes me cry, laugh and smile,  
And confident like never before.  
Music makes me see myself-  
The way I am.  
I feel my blood running.  
My mind is free.  
Music does me no wrong.

## HOW CAN A SHY PERSON MAKE FRIENDS?

How can a shy person make friends?

Many of us struggle to talk to new people, but meeting new people doesn't have to be scary. Making new friends will boost our happiness and it will release our stress. It also improves our self-confidence. It can be difficult for introverts to make new friends, because getting to know someone takes too much time. But they too need friends, with whom they can celebrate good times and provide support during bad times. Friends prevent loneliness.

Here are some ideas to help ourselves make new friends at school-

- We should use conversation starters to get chatting.
- We should spend time with our friend's friend.
- We should speak to someone who's on their own.
- We should look for common interests. Having something in common with someone will automatically make you best friends.
- We should always ask open questions. Open questions are questions that can have a number of responses, whereas closed questions are questions which are limited to a few word answers.

# MATHS

Maths is so boring,  
Some say it is scaring,  
I feel myself sinking.  
Till period bell goes ringing.  
I want to escape from Maths and run;  
But the sight of teachers,  
Make me return.  
Oh! Sir, I am unaware, I always work here and there,  
With the rate, I am going, alas!  
I'm not sure I will pass.

## ASTROBIOLOGY

Ever since early humans first looked skyward and imagined the stars as distant campfires, humanity has wondered if we are alone in the universe. The ancient Greeks argued against our home planet being the only cradle for life, but lacked the technology to prove their beliefs. In the late 20th Century, the near simultaneous discoveries of the possible remains of bacterial life in a Martian meteorite and the first planets orbiting. Other stars brought the question of the existence of life beyond the Earth to the forefront of scientific endeavours. In the 21st century, the new field of astrobiology harnesses the required technological and scientific capability to seriously address this ancient and fundamental question.

Astrobiology is the study of life in the universe. The search for life beyond the earth requires an understanding of life, and the nature of the environment that support it, as well as planetary, planetary system and stellar interactions and processes. To provide this understanding astrobiology combines the knowledge and techniques from many fields including astronomy, biology, chemistry, geology, atmospheric science, oceanography and aeronautical engineering. Astrobiologist can work alone on particular scientific questions, but often astrobiologists, from different scientific disciplines work together to examine complex questions that no one field can answer alone. These questions cover topics such as:

- How does life originate?
- How did life evolve?
- What kind of environment is necessary for life to survive? Etc.

# BUCKET LIST

A bucket list,  
We all should record.  
To give us goals,  
To work towards.

Make a list,  
From one to twenty.  
You can have more,  
If you want to have plenty.

Your bucket list,  
Will hold your dreams  
That one day,  
Won't be dreams.

## NAMJOONING

Namjooning, the act of living as Kim Namjoon. Kim Namjoon was born in Ilsan, a city near Seoul, South Korea. It is a really beautiful place with a lake, hills and even an annual flower festival. He spent a very happy childhood there and he was just an ordinary boy. He used to look up at the night sky in wonder and he used to dream the dreams of a boy. He used to imagine he was a super hero who could save the world.

Namjooning includes taking walk to the parks admiring nature, hangout with crabs and having fun with friends but it also consists of bicycling, reading books, art museum / gallery etc.

Namjooning is anything involving nature and the organic matter and little things that makes you happy. It also says "Namjooning" is that first step to world peace and free therapy for mental pain.

# SAVE A TREE, GET THINGS FOR FREE

Trees are important support for life. All living beings depend on plants in one way or the other. Trees are our best friends. We get oxygen from trees. They help in absorbing dust and other pollutants and thus cleaning it. Some plants have medical properties too. Trees give us fruits, vegetables, flowers and beauty to our surroundings. Trees are home to many birds and animals. We cannot live on earth without trees.

Do you know?

Tulsi Gowda from Karnataka has planted more than 30,000 trees around the district. Another person named Jadav Payeng, also known as the 'Forest Man of India' spent 30 years of his life planting around 40 million trees. He hails from Majuli, Assam and has his own forest popularly known as 'Molai Forest'.

Save trees and Save the Environment.

# ONLINE LEARNING

(finalexpress.com)

Since the Covid-19 pandemic has disrupted the normal lifestyle of people across the globe, the virtual world has come to the rescue. Amongst many institutions schools have also shifted their base to virtual platforms to conduct classes online. Consequently, catering to the needs of all stages of education from pre-primary to university level, online education has emerged as an alternative to ordinary face to face classes. Upskilling and motivating teachers, organising counselling sessions for stakeholders such as teachers, parents and students are some of the important measures taken by the administration in the recent past. Making a continuous effort to provide customised teaching learning material suitable for online classes is another way of facilitating the schooling of children. My school S.F.S is a good example of online learning that I came across. I have been doing my online classes for the last 5-6 months and I have learnt many things from these online classes. The teachers also played their roles very well in teaching minutely from time to time and with consistency. These online classes and this online learning helped me a lot to cope up with my studies.

Therefore, according to me, online learning and the online classes have performed a most important and successful role in the education system of all the students.

## MY FIRST DAY AT SCHOOL

The first day of my school is something I can never forget. I was extremely happy but also afraid, as I didn't have any friends there. That day, I woke up early, took my bath and had my breakfast. My father helped me put on my uniform and my mother helped me to pack my bag and lunch box. As soon as I got inside my school gate, I got a glowing smile on my face. I got inside my classroom, it was very big. I was sitting and my parents were standing outside my classroom. Then the parade started. My class teacher, Kalpana Maam and other teachers helped us to stand in a line. We held a candle in our hands as the teachers helped us to light it. Then the assembly started followed by the welcome prayer. As soon as I heard my school prayer, it gave me goosebumps. I was immensely happy to become a part of the new family. After the prayer, our Principal gave some valuable messages. The assembly ended with the national anthem. I, along with my classmates, went inside the class again. I made new friends. This is how my journey in SFS began. My school is very big and very beautiful.

## THE OLD WISE MAN

SOURCE : GOOGLE

There was a village called Lichan. It was only famous for the wise man who lived there. All the people of that village came to the wise man with their problems. They came with the same problem every time. One day, the wise old man told the villagers a joke and everyone roared in laughter. After a couple of minutes, he told them the same joke and only a few people smiled. When he told the same joke for the third time, no one laughed. The wise man smiled and said: "You can't laugh at the same joke over and over. So why are you always crying about the same problem every time."

Moral: "Worrying won't solve your problems; it will just waste your time and energy."

You never said I'm leaving, daddy!  
You never said goodbye,  
You were gone before I knew it  
And only God knows why!

A million times we needed you,  
A million times we cried.  
If our love could have saved you,  
You never would have died.

I miss the time we walked in the beach,  
You held my hand tight;  
I wish I could hear you sing  
But these are only sweet memories now.

We will always remember you, daddy!  
In death we still love you;  
You watch over us from heaven

## A MEMORABLE TRIP TO KOHIMA

Last Durga Puja, I went to Kohima for a family vacation. We started our journey from Guwahati to Bokajan by car. After staying there for one night, the next day, we continued our journey and reached Dimapur. Dimapur is the business hub of Nagaland. It is a big city of Nagaland. From there we continued our journey towards Kohima. On the way, we saw many green mountains and beautiful sceneries. After one and half hours, we reached our destination Kohima, the capital of Nagaland. It is a big city that stands at the top of a hill range. We stayed at a beautiful resort surrounded by green mountains named Rhododendron resort. It is situated near The Kisama Heritage Village. I enjoyed playing there with my cousins a lot. Next day, we went to see Kisama Heritage Village and Kohima War Cemetery. The Kisama Heritage Village is known for the famous Hornbill festival which is organised every year from 1st to 10th of December. After that we visited the Kohima War Cemetery.

"When you go home, tell them of us, and say we gave our today for your tomorrow."

This beautiful quote welcomes all the visitors to the Kohima War Cemetery. This Cemetery is dedicated to the soldiers of World War II, who died fighting against the Japanese Army in the year 1944. Representing the Indian, Canadian, Australian and British nationalities, a total of 1,420 burials were erected. After seeing the War Cemetery, I realised why Kohima is called Stalingrad of the East. The journey to Kohima has enlightened me with the culture of the state, its beauty and the great sacrifices of the soldiers. I will never forget my visit to this beautiful city of Kohima.

# OUR NATIONAL FLAG

The National Flag of India was embraced on July 22, 1947.

The Flag is rectangular and consists of tricolour parallel bands- saffron, represents dignity, white represents peace, and the green band represents the country's greenery.

The tricolour or the 'Tiranga' represents an independent country.

The Indian National Flag was designed by 'Pingali Venkayya'.

The Ashoka Chakra in the white symbolizes the eternal wheel of law.

The Indian National Flag is the symbol of pride, patriotism and self-reliance.

## AAAAHCHOOO!! GOD BLESS YOU!

"Gesundheit!" say Germans.

"Jesus, Mary and Joseph", say Spanish.

"Tihei mauri ora," say Polynesians.

Ancient man believed that his breath contained his spirit, or his soul, and that it lived in his head. Therefore, when he sneezed, he feared that he was losing his soul and leaving an empty place in his head for evil spirits to enter. All this would happen unless God prevented it. Thus, a wish was spoken for God to bless that person. While others believed that evil spirits which had already entered the body, jumped out on a sneeze and entered other people's bodies.

Today, we know that a sneeze can be harmful to other people, but not because of evil spirits but rather because of the harmful bacteria that travel in the droplets of moisture expelled in a sneeze-bacteria which can spread colds, flu and other diseases.

# COVID PANDEMIC AND ITS IMPACT ON STUDENT LIFE

In early 2020, the term COVID-19 became the headlines of most of the newspapers and the news channels. Everyone in the world was worried about the pandemic which was believed to have originated from China. Soon, India also came under its impact and most of the people of India got affected by this. It was spreading so fast that the Government could not but announce a lock down in the country.

I was only 8 years old and as a kid I was so happy to hear that our school would be closed for some days and we would get some time to play and stay at home. For the first few days, I was very happy to be with my family. I rarely get time to spend with my dad, as he is a businessman and most of the time he needs to be out of the city due to his work. But due to lockdown, I got to spend some valuable time with my parents. Time was flying and we kept on enjoying, ignoring the importance of studies. No one expected that the pandemic would bring a huge impact in everyone's life. As a result, the lockdown kept on extending. Gradually, the Government ordered the schools to start online classes. Therefore, our school also started the online classes.

Every morning our classes started. My father bought me a new laptop to facilitate my education. Teaching online is not an easy task for the teachers. But our respected teachers worked hard to teach us. There were online exams and presentations that really kept us busy.

After a few months, the impact of the pandemic was minimal and so the Government ordered the schools to start the normal classes. We also started to go to the school but, yet again another wave of the pandemic evoke. This time the impact was more dangerous. Even though the vaccination process started, lots of people died. The painful part is that there is not yet any vaccinations for the children. Therefore, again we had to depend on the online classes.

This pandemic has had a huge impact on the students' life. Learning in school and learning online is completely different. In school, we not only get education, but meet our friends, interact directly with our teachers; we play different sports which develops our physical and mental growth. But during lockdown we would sit with our laptops in front and after the classes were over, we would play mobile games as we were not allowed to meet our friends, and near and dear ones due to the fear of contamination.

This impacted our mental and physical development. The daily routine was completely changed. Now, when we go out the surrounding environment appears new to us.

If we think about the poor students, it is more painful. Most of them cannot even afford two meals a day. Then how can they arrange an android phone or a laptop? Their education got so badly impacted that they will need significant help from the Government and from the other people to overcome that. I believe if everyone from the society can donate something for those poor students then we may help to boost their education.

## “NULDING KUT”

Nulding Kut, also popularly known as the 'Festival of Renewal of Life' is celebrated by the Biate tribe. The Biate are one of the oldest mongoloid tribes of Northeast India. During this period, the Biate people, before starting any new activities of life, enjoyed together by forgiving and forgetting their grievances against each other. They enter a new life, a new year by praying to God for forgiveness, kindness, blessings and prosperity for the coming year. This festival teaches us the tradition of peaceful and harmonious co-existence in our society. Let's forgive one another and be kind towards every living being.

# MY IDOL- DR. APJ ABDUL KALAM

Dr APJ Abdul Kalam (Abdul Pakir Jainulabdeen Abdul Kalam) was born on 15 October 1931. He was an Indian Aerospace scientist who served as the 11th President of India from 2002 to 2007. He was born and raised in Rameshwaram, Tamil Nadu and studied physics and aerospace engineering. He spent the next four decades as a scientist and Science administrator, mainly at the Defence Research and Development Organisation (DRDO) and Indian Space Research Organisation (ISRO) and was intimately involved in India's Civilian Space program and military missile development efforts.

He thus came to be known as the Missile Man of India for his work on the development of ballistic missile and launch vehicle Technology. He also played a pivotal organisational, technical and political role in India's Pokhran-11 nuclear test in 1998, the first since the original nuclear test by India in 1974.

He was elected as the 11th President of India in 2002 with the support of both the ruling Bhartiya Janata Party (BJP) and the opposition Indian National Congress (INC). Widely referred to as the "People's president", he returned to his civilian life of education, writing and public service after his single term. He was the recipient of several prestigious awards, including the Bharat Ratna, India's highest civilian honour.

Kalam received 7 honorary doctorates from 40 Universities. The Government of India honoured him with the Padma Bhushan in 1981 and the Padma Vibhushan in 1990 for his work with ISRO and DRDO and his role as scientific advisor to the government. In 1997, he received India's highest civilian honour, the Bharat Ratna, for his contribution to the scientific research and modernization of the defence technology in India. In 2013 he was the recipient of the Von Braun Award from the National Space Society to recognise excellence in the management and leadership of a space related project. Not only in India but Kalam was awarded across the globe. Some of them are- Honorary professor in Beijing University, China 2014, Doctor of Science in Edinburgh University, UK 2014, Doctor of laws in Simon Fraser University 2012 and many more.

While delivering a lecture at the Indian Institute of Management Shillong, Kalam collapsed and died from an apparent cardiac arrest on 27 July 2015, aged 83. Thousands, including national level dignitaries attended the funeral ceremony held in his hometown of Rameshwaram, where he was buried with full state honours.

Dr APJ Abdul Kalam was an inspiring icon for all of us.

## THE SHY BIRD

Koo-koo, the bird sings  
Every morning I see,  
She is the one with beautiful feathers  
Always full of glee!

Every time I rush to her,  
She acts like she is shy  
She flies upon the sky,  
And I wonder why!

She is so beautiful  
And her songs are artistic,  
The way she sings makes me  
Happy and enthusiastic!

# AM I DEAF?

Listening is a mental activity.  
Deaf ears do not hear, but deaf  
people do listen, only differently.  
I have observed things in  
my neighbour's aunt's house.  
When old aunt calls her kids for  
help, they hear but do not respond.

School children in the bus listen to  
songs with earphones and do not  
even talk to their partners.  
In school we stand and pray,  
children talk to each other.  
They hear the prayers going on

they choose not to listen.

# BEST FROM THE REST

I was thinking to bake,  
A very delicious cake.  
I think I added too much yeast,  
And I destroyed my feast.  
My cake burnt down,  
And I had a sad frown.  
I invited my friends in a group,  
So they could taste my yummy soup.  
After they drank the soup,  
They said it was yummy.

Being said from their tummy.  
I thought it was the best,

# MORAL VALUES

Moral values are very important in a person's life. Moral values are the positive teachings and ethical values that define humankind. Moral values empower an individual to perform better with human intention, motives, acts and relationships with other individuals. Moral values form the basis of all religious practices. Values such as perseverance, self-control, respect, honesty, generosity, politeness, kindness, integrity etc help a person become a better individual and a citizen. Thus, these values help people become successful human beings. Every parent wants his child to bear a good moral character. Many families in India are especially strict when it comes to imbibing moral values. They stress upon its importance and try to help their children inculcate the same from an early age. However, the moral values in the society are degrading each day. A child can develop confidence and stability in his life if he is influenced by positive people and has a good family structure. Family is an important and personal investment that can be shared with our loved ones.

## MUSIC HAS NO LANGUAGE BARRIER

Music is a source of comfort and happiness to many listeners all over the world. People listen to different genres of music according to their taste in music. Apart from listening to music, many people choose music or singing as their dream career. But somehow the passion for creating music is held back due to the language barriers which are set by many music listeners. It is a common matter of argument between today's young listeners and their parents. Today many young people listen to Pop or K- Pop music, but their parents want them to listen to classical music. Not only parents, but there are also many people who hate songs of other languages just because it's not their language. Music should be enjoyed for its sweetness and creativity and not for its language. However a time shall come when music will be music and we will be dancing to its tunes irrespective of its language.

## MUSIC HAS THE POWER TO HEAL

Music is a form of melody that soothes our body and helps us to feel refreshed and relaxed. It helps us to get rid of the anxiety and stress of our everyday life. Music is undoubtedly a great way of healing pain. The various music elements of rhythm, melody, harmony and tempo stimulate a cognitive and emotional response that comprises the affective component of pain which helps to positively affect mood and results in improved healing. Music is the expression of emotion through the medium of sound. From The very first moment when a human heard a song- bird and endeavored to recreate that beauty or beat on a hollow log and found the rhythm compelling, music became the most powerful freedom given by God. Numerous scientific and psychological studies have shown that music can lift our moods, combat depression, improve blood flow, suppress stress etc. So, Listen to music and set yourself free from the stress of life !

# LIFE OF AN INTROVERT

Every human being has a unique personality but for the most part people tend towards being either extroverts or introverts. For introverts the inner world of imagination and reflection is closer, while extroverts prefer the outer world more. Introverts are more distant from strangers. Many introverted types of people are social beyond their homes and they even can feel confident and at ease in the company of people, but the main point is that they need time alone with their thoughts to balance energy. When it comes to communication, it is easy for extroverts, but when it comes to introverts, they tend to face awkward and uncomfortable situations. In today's culture, extroverts will experience a much different life than introverts. Making friends can also be a difficult task when you're an introvert. As many introverts find it hard to approach people and even if they become friends with someone, it takes time to form a bond strong enough to be at ease with them.

An introvert can be as successful as an extrovert. Some of the most successful introverts are Bill Gates, Mahatma Gandhi and Albert Einstein. To conclude, introverts are normal people who just need more private space and time for thoughts and analyzing. They can communicate with others, but feel better at home in their own space with people they know and feel safe with.

## SCIENTIFIC FACTS ABOUT THE HUMAN BODY

We grow taller in the morning - not at night! Because of the cartilage in our bones which compresses during the day.  
Our heart beats about 1 million times a day, which means it sends 2000 gallons of blood through the body.  
Our highest blood pressure is not in our brain, heart or liver! It is in our kidneys because they are the body's natural filtration system.  
Our blood vessels are small but very long! If they were laid out, they would measure more than 60,000 miles!! But it is better to keep them inside our body.  
Humans are the only organisms who enjoy spicy food.  
The strongest muscle in the body is the tongue.  
About 75% of the brain is made up of water.  
We have two kidneys, but only one is necessary to survive.

# FREEDOM FIGHTERS OF INDIA :

## Subhas Chandra Bose

On January 23, 1897, Subhash Chandra Bose was born. Later, the world came to know him as Netaji. After completing his early studies he came to Calcutta (now Kolkata). Upon completing his graduation, he came to England but he was reluctant to work under the British Government. He resigned and returned to India.

He felt that young militant groups could be moulded into a military arm of the freedom movement and used to further the cause. Gandhi opposed this ideology because it directly conflicted with his policy of Ahimsa. The British government arrested Bose and transferred him to Burma. Later upon his release he was elected as the President of Bengal Congress. Being a man of his ideals, he believed in independence from the social evils and religious discord.

By the time of WWII, it had long become evident that elite terrorism was not going to inspire a popular revolution. After Gandhi came along and demonstrated how a popular movement might be generated, the terrorists became less relevant.

Gandhi certainly saw Bose as a rival and a dangerous upstart, and did his best to destroy him politically; where Gandhi sought compromises with the British, Bose sought absolute victories.

Gandhi was willing to wait a long time for independence, Bose wanted immediate action, if not immediate results.

# THE CARPENTER

Old Tom lived in the countryside all by himself. His best friend was also his closest neighbour. They had grown old together. Now their wives were no more and their children were away and living lives of their own. All they had now were their farms and each other.

But for the first time in their long friendship they had a serious disagreement. It was a silly argument over a stray cow that neither of them really needed. The cow was found on the neighbour's land and he claimed

it as his own. Old Tom said, "No, no". The cow has the same marking as one of my calves, and I say it belongs to me!" Both were too stubborn and neither would give in. Rather than hit each other, they just stopped talking, went off to their respective houses, and slammed the doors shut. Three weeks went by without a word being exchanged between them. Old Tom was very upset.

On Saturday morning Old Tom heard a knock on his front door. He was surprised to see a young man standing on his porch. He carried a toolbox and smiled kindly at Old Tom.

"I am a carpenter and am looking for work," he said, "If you have some work for me, I can help out." "Yes I do have a job for you." replied old Tom.

"Can you see the house over there? That is my neighbour's house. You see that creek along our property line? That creek was not there two weeks ago. He has done that to spite me. He fixed a plough to his tractor, and dug that creek from the upper pond right down the property line. Then he flooded it! Now we have this creek to separate us. I am so mad at him! I have lumber in my barn, boards, posts and everything you will need to build me fence-tall fence-all along that creek. Then I will not have to see this place again. That will teach him a lesson!"

The carpenter smiled and said, "I will do a good job for you, Tom."

The old man had to go to town for supplies, so he hitched up his wagon and left for the day. The young carpenter carried the lumber from the barn to the creek side and started to work. He worked hard and fast. He measured, saved and nailed those boards into place all day long without stopping to eat or rest. At sunset he started to put his tools away. He had finished his work.

Just then old Tom came, his wagon filled with supplies. When he saw what the carpenter had built, he could not speak. It was not a fence! Instead, it was a beautiful footbridge, with handrails reaching from one side of the creek to the other!

Just then old Tom's neighbour crossed the bridge, his hand held out and said, "I am really sorry about our misunderstanding, Tom. The cow is yours. I just want us to go on being good friends."

"You keep the cow," said old Tom smiling. "I want us to be friends too. The bridge was this young fellow's idea. I am glad he did it."

"Wait," said Tom, "You are a good man. My neighbour and I can keep you busy for months."

The carpenter smiled and said, "I would like to stay, Tom, but I cannot. I have many more bridges to build."

Whilst whistling a happy tune, he walked away down the road.

# THE OPEN WINDOW

The story I'm going to share is about a mysterious dream I had on 11th November 2021. This is not an ordinary dream. It is also my factual story. 'The Open Window' is a dream where I am Wamiel, the one who always has a clear path and a strange circular window in front of me. This strange circular window with a mirror on it shows my past. And my past is shown in slow motion, where I am the one who is the narrator. But in one of my past dreams I saw that I'm in the woods, which is dark and hopeless. No souls till far away. It's just me and a lot of butterflies, all alone. The butterflies are colourless, with no feelings. Just roaming around in clusters. Seems like a dark dream, doesn't it? Not only dark but also an unexpected dream! I can see myself, crying- losing hope. Moreover, I'm all alone. I don't have any other choice, but to go through it. I'm walking through the woods, and suddenly see someone. It's none other than a stranger who says he knows me and surprisingly turns out to be one of my distant relatives. He was strange! I was told that his name was Nishant Sarmah and he happens to be my maternal uncle. I was so shocked to hear that because as far as I knew, he had already died fourteen years ago and was now in front of me. "Life is strange"- he said.

"Unfortunately, I died in an accident," Nishant said. But, suddenly, a strange noise was heard and the person who was supposedly my uncle, grabbed me and took me deeper into the woods and revealed his actual identity. He said that he was one of the closest friends of Nishant but when Nishant fought with him, he plotted to murder him and eventually he did so. "This is life," he said. Just when he was going to kill me too, I suddenly woke up choking. My mother gave me a glass of water and helped me get rid of it. 'Open Window' is one horrible dream that I shall never forget!

# TEARS

Sometimes in happiness  
Sometimes in sadness  
Sometimes in victory  
Or even in defeat  
Tears maintain a link with our soul,  
As if it is a part of life.

Sometimes in fear  
Sometimes in grief  
Sometimes in pain  
Or even for others  
It does not weaken us,  
But makes us strong

Whenever it comes out  
It makes the heart feel calm  
And it feels very nice to the soul,  
Like living in heaven.  
If you never know what it is  
Then I tell you, it's tears.

## SPACE TOURISM

Travelling is one of the oldest hobbies of mankind. After exploring and travelling around the earth, people are now starting to travel to space. Space tourism is the term for space travel for recreational or leisure purposes. There are three types of space tourism- orbital, suborbital and lunar space tourism. Space touring has become a popular topic after companies like Blue origin, Virgin Galactic and SpaceX successfully launched people to space.

The first space tourist was Dennis Tito, who was an American engineer and entrepreneur. On April 28th, 2001 he went to the international space station(ISS) on a Russian spacecraft. Other six space tourists went to the ISS during the period from 2001 to 2009. The first modern space tourism project was done by the company Virgin Galactic on July 11, 2021. The

spaceship used is known as VSS unity which flew with four passengers.

Space tourism has its own advantages and disadvantages. The advantages of space tourism are that we may discover new places for humans to live outside the Earth, and it will also give unemployed people new jobs .The only disadvantage of space tourism is that it is extremely expensive. Currently, Virgin Galactic charges at least \$4,50,000 for a person to go to space, which is over 3 crores ! Another disadvantage is that going to space is not eco-friendly, since spaceships release a lot of smoke and harmful gases while taking off.

In conclusion it would be correct to say that the idea of space tourism is an interesting concept but it is expensive and it will take time before the common man can travel to space.

# TEAMWORK

One of the most important topics that everyone should learn is 'teamwork'. There is no single definition of teamwork or team, but the generally agreed definition of team is a group of people who join each other to achieve a common goal.

Working in a team is generally something that would benefit everyone whether its participants or the company.

It sounds normal but it is actually a tough task because when one pairs with others, all have to maintain respect and stay away from conflicts.

Teamwork helps us to learn new things and helps us to maintain the same decorum in our daily life. It also helps us to opt for a habit of obeying others and this is a really good thing.

# TEENAGERS PROBLEM

Teenagers face real concerns on a daily basis as this is the most awkward growth stage of their lives. During this time, teens are exposed to some overwhelming external and internal struggles. They go through, and are expected to cope with, hormonal changes, puberty, and social and parental force work and school pressures and so on. Many teens feel misunderstood.

It is vital that their feelings and thoughts are validated and that the validation comes from their parents. They need to approach their children, who have been dealing with teenage growth issues, carefully and in a friendly manner to discuss the concerns. It is crucial that teens feel validated in their feelings and thoughts because what they are going through is a real part of their lives. Parents and guardians should not judge or criticize their feelings or thoughts. Being sensitive towards teens and the fact that they are exposed to a range of emotions is an important step in understanding their transition.

## প্রত্যাহান

আহিল হঠাত এক বৃহৎ  
ধূমূহাৰ দৰে,  
অভিশাপ ৰূপে, মানৱজীৱনক দিলে প্রত্যাহান!  
মানুহক শিকালে  
সঙ্গীহীন হৈ থাকিবলৈ  
নতুন ধৰণে সকলোৱে  
আঁকোৱালি ল'লে সময়ক  
মুখৰ সৌন্দৰ্যকো ঢাকিলে আবৰণেৰে,  
সুখৰ হাঁহিকগো সকলোৱে যেন  
দুখৰ কৰি ল'লে  
ক'ত হেৰাল সেই সময়,  
সেই দিনবোৰ?  
গীঁঘ... বসন্ত... শীত...  
নাই আৰু অতীতৰ সৌন্দৰ্য।  
এতিয়া আমাৰ খেলাধূলা, নাচ-গানবোৰো  
হমুনিয়াহ হৈ উঠে।  
কেৱল সোঁৱৰো পুৰণি দিনক।  
জনতাৰ সমাগমে হয় আপদ।

## कोरोना

मिलकर कोरोना को हराना है,  
मिलकर कोरोना को हराना है।  
घर से हमें कही नहीं जाना है,  
हाथ किसी से नहीं मिलाना है,  
चेहरे को हाथ नहीं लगाना है,  
मिलकर कोरोना को हराना है।  
बार-बार अच्छे से हाथ धोने जाना है,  
सेनेटाइज कर देश को स्वच्छ बनाना है।  
बचाव ही इलाज है यह समझाना है,  
मिलकर कोरोना को हराना है।  
कोरोना से हमको नहीं घबराना है,  
सावधानी रखकर कोरोना को मिटाना है।  
देशहित में सभी को यह कदम उठाना है,  
मिलकर कोरोना को हराना है।

## देश प्रेम

देश प्रेम दो शब्दों के मिलन से बना है, जिसका अर्थ है अपनी मातृभूमि से प्रेम करना। अपनी मातृभूमि हर व्यक्ति को प्राणों से भी प्यारी होती है, क्योंकि उसका जन्म और लालन-पालन देश की मिट्टी में हुआ होता है। देश प्रेम राष्ट्र को गौरव की ऊँचाइयों तक ले जाता है। देश की स्वतंत्रता और शांति के लिए देश प्रेम की भावना होना जरूरी है। देश प्रेम की भावना से ओतप्रोत होकर ही सैनिक सीमा पर और खिलाड़ी खेल के मैदान पर असाधारण प्रदर्शन कर जाते हैं। देश प्रेम होना एक महान गुण है। सच्चा देश प्रेमी अपनी मातृभूमि को स्वर्ग से उच्च मानता है। स्वतंत्रता संग्राम में विभिन्न देश प्रेमियों को जन्म दिया जिसकी हिम्मत और बहादुरी के चर्चे आज भी होते हैं। रानी लक्ष्मीबाई, शिवाजी, गांधी जी, भगत सिंह, सुभाष चंद्र बोस, जवाहरलाल नेहरू जैसे कई देश प्रेमी हैं जिन्होंने देश के प्रति अपना जीवन समर्पित कर दिया और अपने देश के प्यार के लिए शहीद हो गए। इन लोगों की बलिदान के लिए आज हम लोग अपने देश में सुख शांति और आनंद से रहते हैं। देश प्रेम भाईचारे को बढ़ावा देता है। देश के नागरिकों में जितना अधिक देश प्रेम होगा उतना अधिक देश मजबूत बनेगा और विकास पथ पर आगे बढ़ेगा।

### धन

धन जीवन की सबसे आधारभूत आवश्यकता है, जिसके बिना कोई भी अपने दैनिक जीवन की आधारभूत आवश्यकता पूरी नहीं कर सकता। हम धन को महत्व की तुलना कभी भी प्यार और देखभाल के महत्व से नहीं कर सकते हैं। जब किसी को धन की आवश्यकता होती है, तो उसे प्यार से परा नहीं किया जा सकता और यदि किसी को प्यार की आवश्यकता होती है, तो उसे धन से पूरा नहीं किया जा सकता। दोनों की ही स्वस्थ जीवन के लिए बहुत अधिक आवश्यकता है, लेकिन दोनों का जीवन में अलग-अलग महत्व है।

## हमारे माता-पिता हमारे कर्ता-धर्ता

### माँ

मॉ तुम सबसे प्यारी,  
तुम जग में सबसे ज्यारी।  
तुम देती हो खुशियाँ सारी,  
चलना तुमने ही सिखाया मॉ,  
मेरे लिए तुम अनमोल हो मॉ।

तुमने ही सिखाया मीठा बोल मॉ।  
तुम से ही शुरु मेरा ये जीवन मॉ,  
तुम्हारे बिन मैं कुछ नहीं मॉ।  
मेरे लिए तुम अनमोल हो मॉ।

मॉ तुम बिन मैं अधूरा,  
तुम साथ हो तो मिलेगा जग सारा।  
तुम सब कुछ हो मेरी मॉ,  
तुम्हारा दिल का टुकड़ा हूँ मैं मॉ।

माता-पिता हर बच्चे के लिए खास होते हैं। हर माता-पिता अपने बच्चों के लिए भगवान समान होते हैं और भगवान के समान इसलिए माने जाते हैं क्योंकि वे सभी, मानव रूप में अपने बच्चों का कल्याण करते हैं। हमारे माता तथा पिता अपने दुखों को भुलाकर केवल हमारे सखी जीवन की कामना करते हैं। कहा जाता है कि माँ-बाप बनना बहुत ही कठिन है, क्योंकि इस अवधि में उन्हें अपना जीवन अपने बच्चों के नाम करनी पड़ती है और बाकी में एक बच्चे के परवरिश के लिए उसके माता-पिता को कई सारे त्याग करने पड़ते हैं, अपने रहन-सहन, खान-पान, बातचीत हर एक चीज अपने बच्चे को ध्यान में रखकर करनी पड़ती है। इसलिए एक बच्चे के अच्छे होने के पीछे उनके माता-पिता की अच्छी परवरिश ही होती है। माता-पिताओं का इतना बड़ा कर्ज हम चाहकर भी चका नहीं पाएँगे परन्तु फिर भी उनकी सेवा करना, उन्हें खुश रखना हमारा धर्म है जिसे हमें हर हाल में पूरा करना चाहिए।

# चिड़िया - हमारे घर की

हमारे घर की,  
छत में -  
लगाए कुछ पेड़-पौधे तो,  
एक-एक करके; आने लगी  
अलग-अलग चिड़िया  
चहक-चहक कर गाना गाते;  
लगता जैसे कछ मांगते सुबह उठते ही ,  
आते मेरे पास  
देती हूँ रोज  
उनको खाने के लिए चावल  
एक-एक करके चावल खाते।  
देख-देख के आता मजा।  
खतम होने पर -  
हल्ला मचाती  
लगता है कुछ और माँगते  
रोज़ करती मैं यह काम  
दिल की खुशियों से -  
भर लेते मेरा मन।

## आए दिन परीक्षा के

आए दिन परीक्षा के  
गए दिन हमारे खेलने के,  
अब हमे करनी है पढ़ाई  
तभी होगी हमारी भलाई।

पढ़ते-पढ़ते चाहे हो बोर  
पढ़ना है शाम और भोर,  
हमें तो सिर्फ पढ़ना है  
जीवन में आगे बढ़ना है।

## प्रकृति

प्रकृति है हमारे सबसे सुंदर  
है सबसे न्यारी  
इसमें रहते सभी पेड़-पौधे  
तितलियाँ प्यारी-प्यारी।  
प्रकृति हमारी घोर निराली,  
निंकली इससे जुड़ी है दुनिया हमारी।  
कितना सुंदर अपना ससार  
मिलजुल कर सब रहते हैं  
प्रकृति इसे का हम कहते हैं।  
सब जगह हरियाली छाइ  
सूरज का वरदान है,  
हम रहते हैं प्रकृति में;  
और यही हमारी शान है।

इसलिए, रक्षा करना इसकी, है हमारा फर्ज़,

## स्वप्न

स्वप्न है एक अलग ही दुनिया,  
एक अलग ही यह धरा।  
एक में रहो खुश,  
तो दूसरे में लड़ा।  
हर एक सपने,  
केवल सोते समय नहीं आते।  
बहुत सपने जो खुले नेत्र से देखते,  
हम बहुत कुछ कहकर जाते हैं।  
कई सपने देख-देख,  
हम हैं मुस्कुराते।

सुंदर-सुंदर पंख हिलाती।  
फूलों का रस पीकर जाती।  
जाने कहाँ से आती तितली।  
सबको खूब लुभाती तितली।  
तितली सबका मन बहलाती।  
कभी किसी के हाथ न आती।

A graphic design featuring a red background with a faint grid pattern. Overlaid on the grid are several black ink splatters of varying sizes and a thin green line that forms a partial circle and a diagonal line. The text 'ART & CREATION' is centered in the middle of the design. The word 'ART' is in a large, white, serif font, and the word 'CREATION' is in a large, white, cursive font. An ampersand (&) is positioned between 'ART' and 'CREATION', also in white. The text is set against a dark, irregular shape that resembles a splash of black ink or a torn piece of paper.

The background of the image is a vibrant, abstract composition featuring a variety of leaves in shades of red, orange, purple, and blue. These leaves overlap and are interconnected by thin, black, wavy lines. Interspersed among the leaves are several butterflies with intricate patterns on their wings, including blue, orange, and purple designs. The overall effect is a dynamic, organic, and colorful collage.
