14TH EDITION

MESSAGE from Principal

The idea of universal citizenship has been a talking point for quite a long time. It has received conceptual clarity and fresh lease of life with the sudden outbreak of Covid. It has taught humanity that irrespective of which part of the universe that you exist, everyone is susceptible to all the happenings. Probably in the long history of the world, Covid is one health hazard that has impacted the nook and corner of the world in such a fast phase. It has obstructed critically many spheres of human life such as education, business, travel and communication, hospitality and tourism, employment, health, welfare, etc. Though the furiousness of the virus is receding, it would take decades to overcome the devastation caused by this pandemic.

SFS Guwahati has always stressed upon the importance of education which is inclusive, global and value based. Creating and moulding a band of students who are universal in their thinking, inclusive in their attitude and values, respectful and harmonious in approach was and is our dream and aspiration. The advent of Covid has neither dampened nor halted our search towards an educational pedagogy which creates the spirit of universal brotherhood in the budding minds. More than ever, we realize that true education should keep us connected and bonded to solve the problems of the future world. The 14th edition of the newsletter Desalite News and More re-in forces the fact that irrespective of the global pandemic here at SFS we are still moulding universal citizens. My sincere thanks to every member of the Desalite family for this new edition. Happy reading to one and all.

Stay safe. God bless SFS
