OPEN HOUSE PTM FOR THE CLASS XI INTEGRATED COACHING (JEE/NEET)

An informative Open House meeting for the parents of the students of Class 11 Integrated Science was held on 22nd May, 2024. It was conducted in the Mermier Hall inside the SFS campus from 8:00 AM onwards. The main resource person for this meeting was Sir Dinesh Lahoti, who gave a heartfelt lecture about the preparation for the JEE's and NEET's. This meeting was very salient as it informed the parents and helped them understand their importance and role in guiding their children for these competitive exams. The people present in this meeting were the parents, Academic Director; Sangeeta Dutta Bharali Ma'am, Respected Ref. Fr. George Thomas and Sir Dinesh Lahoti.

At first, the parents of the class 11, IC NEET and IC JEE were welcomed, which was followed by the welcoming of the resource person Sir Dinesh Lahoti, who was then felicitated and greeted with respect. After that the School Principal, Ref. Fr. George Thomas gave a welcoming speech to all the people present in the PTM, which was subsequent with the main discussion for the day. Firstly, Sir Dinesh Lahoti spoke about the reality of the competitions all over India for the selection of the students for JEE and NEET. It is believed that for a JEE aspirant, out of 10-12 lakh students, only about 10 thousand students are selected for the IIT. In case of NEET, it is much tougher; nearly 24 lakh students register yearly to compete for the limited medical seats across India and only a handful of them are selected depending on how they perform. After that, Sir Dinesh Lahoti quoted that the JEE and NEET is not a sprint race, it is a marathon race and that the students have to be slow and steady and work hard for a long run to be selected. He also spoke about the books required for the students to follow which are mainly the NCERT textbook, the modules and the practice papers. He then reasoned that since the students should be more focused towards their studies, less holidays and participation in activities are provided by the school to these students as compared to the general science students. Furthermore, he discussed why this is an integrated course and stated the reason for it as that, since the students are prepared for both the board examinations and these competitive exams so it is called an integrated course. Then he added on about the doubt clearing sessions from 3:15 to 4:00 PM every day when the students will be able to clear their doubts and ask questions to the respective teachers related to the topic of discussion. Finally, he remarked about the school counsellors who are always present to help the students and parents in case of counseling and to give advice or guidance to them.

After this there was an interactive session for the parents when a number of them asked their queries and shared their doubts and thoughts regarding the JEEs and NEETs. In the end a vote of thanks was given and the PTM was over with accomplishment and contentment.
