Principal's Message

Dear Desalites, it is hard to believe that the end of the school year has arrived! 10 months have passed very quickly! And indeed it was an incredibly busy year for everyone at SFS.

The year's end brings with it a tremendous sense of accomplishment. So many things have been accomplished this year! Our students and teachers have passionately involved themselves in extraordinary activities. Academically this has been a stellar year. The focus and attention definitely is on the academic performance of the students making them capable of standing shoulder to shoulder to the best in the country. Because it is our conviction that basic education and fundamental conceptual clarity for further knowledge enhancement has to be done in the school days. And this is amply clear in the Board Examination results of our students' year after year. The unceasing and enduring accomplishment in sports arena has spread into the literary realms as well thus making us more confident than ever beckoning us to fly higher and higher.

At SFS, we have a team of students and teachers who dream big and continuously create dreams into reality. whatever we ask them to do, they always seem to do more, and their commitment and pride in what they do leads them to excel giving us the assurance that they will be the true leaders of tomorrow. To those who are leaving us to go to pastures new, I wish them everything they could hope for. They have left their footprints at SFS and the school is a better place because they were here. For those who are with us next year, I hope they have a superb and unforgettable learning experience.

I extend my grateful thanks to the entire Desalite family our teachers and students and more especially the editorial board and contributors of the news letter.

Praying for you all

Fr. George msfs

The joy of winning, love and affection filled the environment this time too. 9th SFS challenger's trophy is the most awaited tournament for every school in Guwahati. This is an inter-school basketball championship held every year to promote the interest of the students in the field of sports. These three days fulfilled many people's dreams, disheartened some and gave the joy of winning to some. In every match, we could see the enthusiasm of the players; we could feel the hard struggle between the playing teams. But the performance of the losing team was always appreciated by the winning team. The SFS boys and girls with some kind of extraordinary performance stepped into the finals; and once again with a brilliant performance came out winners.
